

MILK SOURCING IN THE US

TRANSPARENCY & TRACABILITY

650 Direct sourcing from Farmers we know (~X% of volume)

12 Indirect sourcing via X cooperatives (~X% of volume)

X factories

RELATIONSHIP WITH FARMERS

>20 field technicians accompanying farmers throughout the year

Cost+ contracts with ~10 producers, with full coverage of their production costs, representing 40% of collected volumes in the US.

THE WAY WE FARM

- Organic: ~600 Organic Dairy farmers (representing ~45% of volumes)

- Non GMO certification: 16 Non GMO Dairy farmers (representing ~45% of volumes)

- 3-years of Soil health program: >35 farms involved, > 80 000 acres, representing 50% dairy milk volume

- Journey towards climate neutrality: pledge from Horizon Organic brand; 80,000 tons of carbon dioxide equivalent and sequestered more than 20,000 tons of carbon through regenerative soil health practices since 2018.

- Animal welfare: Validus program
